

## Posts on the Village Green

Maintenance of the Village Green is just one of the many responsibilities of your Parish Council. Many years ago, a line of posts was placed alongside the road to discourage vehicles from driving onto the Green, and nature has played its usual trick of trying to reclaim them!

Replacement has been quite a task, as you might imagine, and cost was a big issue for a cash strapped council.

Thankfully, one of your councillors,

Brian Heard, stepped up to the plate, and set about the task of digging out the old and inserting the new.

## Posts on the Village Green

Brian said later,

*"I had to replace 12 in all and it was a really hard job ... To have it done by a professional would have cost the village several hundred pounds so I offered to do it."*

The two posts here are fitted with handles to allow easier access for delivery vehicles to the narrow drive opposite.

They are not for general use!

Our thanks are due to Brian for his hard work, and to Sharon Budd (Messrs A Porch & Sons) who organised the supply and storage of the posts for us.
